OUR IDEA OF FAM TOKEN:

The FAM Token is designed to reach famous people. each Instagram account who has more than 10,000 followers receives free tokens at the amount of followers he/she has...(20,000 followers will be equal to 20,000 worth of FREE FAM coins), this way we will market the token easily.

Why invest in FAM Token

Digital currencies are radically transforming the world in a way that we have never seen before. In addition, digital currencies are extremely popular at the moment (as of November, 2021), so investing in a digital asset or a cryptocurrency like FAM, will allow investors to enjoy their crypto experience to the fullest using the FAM Token platform. Member levels will be determined by the number of FAM tokens held on the exchange. This will provide a sliding scale discount and staking benefits automatically (see Rewards & Incentives page #11 for more details)

FAM's goal is to be the ultimate utility token for the three main pillars in FAM Token. Furthermore, FAM will, as part of the FAM Token mission, give back to those less fortunate. FAM will be another source of revenue that will help build the FAM Token foundation, providing capacity to build shelters for homeless people, animals, and other people in need around the world. FAM's mission goes beyond the fundamentals which it was created upon.
